Recent Projects

2017

Kudzu

- Developed front-end, database, and back-end code for a collaborative ed-tech platform.
- Designed UI and UX components, and implemented code to render across devices.
- HTML, CSS, JS, PYTHON, FLASK, PEEWEE, SQL

Fission

- Developed web-scraper, back-end, and email formatter and bot for a social activism platform.
- HTML, PYTHON, SPARKPOST

Over Sand Vehicle (ENES100)

- Developed behavior for an autonomous vehicle with an actuated sensor array.
- ARDUINO

Zencode (Bitcamp 2017)

- Developed back-end for a natural-language programming language to integrate with Amazon Alexa.
- PYTHON

Experience

Executive Director, Startup Shell

May 2017 - Current | College Park, MD

- Manage a student-run incubator with over \$20 million in combined value across ventures.
- Develop and maintain relationships with corporate and university partners, and alumni.
- Manage day to day operations, supporting the over 20 active ventures in the Shell.

Founder, Quarky LLC.

Aug 2016 - Aug 2017 | College Park, MD

- Founded a toy design company that develops and 3-d prints abstract strategy games.
- Drafted and developed unique IP, and am patent pending for one of my designs.
- Managed production, shipping, and payment logistics for a made-to-order hardware venture.
